## Professional Experience

### Software Engineer 1, Parkar Digital

2023 Feb – present

Pune, India

As a Software Engineer, my task is to deliver efficient and scalable software solutions to the client. I am actively involved in working on backend side and doing frontend and backend integration. My work includes designing and implementing the software and meet the clients requirements.

### Software Development Engineering Intern, Thinkseed Systems

2023 Jun – 2023 Dec

Bangalore, India

As a Software Development Intern at ThinkSeed Systems, I had the valuable opportunity to work within the Backend Team, where I gained practical experience in Spring Boot Java and RestFul APIs.

## Projects

### "An Expense Tracker website made using NestJS and ReactJS." [↗](#)

A System designed to track the daily expenses of a user. User will be able track it's expenses, set monthly budget, visualize the expenses category wise or payment mode wise, get daily, monthly and weekly reports for the expenses. The backend of this system is developed using NestJS Framework and UI is designed using ReactJS.

### "An AI Chatbot developed using MERN-Stack and OPENAI API" [↗](#)

This is an AI Chatbot application, inspired by ChatGPT, by using MERN Stack and OpenAI. Its a customized chatbot where each message of the user is stored in DB and can be retrieved and deleted. Its a completely secure application using JWT Tokens, HTTP-Only Cookies, Signed Cookies, Password Encryption, and Middleware Chains.

### "A Telegram Bot for Weather update using NestJS" [↗](#)

A Telegram Bot for the users to get daily updates on the weather of their city once they subscribe to the bot. Users can subscribe and unsubscribe at any time. It is created using NestJS which is used to create server side applications. It also have an admin panel where the admin can block or delete the users from the bot.

## Skills

- C
- Python
- Database :- MySQL.
- APPLICATION SOFTWARE : Spring Tool Suite, Visual Studio, Android Studio
- Data Structures and Algorithms
- Software Development Life Cycle
- AWS, AZURE
- Junit Testing and Integration Testing
- Java
- Git/ Github/ Bitbucket
- Operating Systems
- Computer Networks
- Frameworks: Spring Boot in Java
- ReactJS
- NestJS
- HTML/CSS/JS

## Education

### Masters of Technology in Computer Science and Engineering, National Institute of Technology Goa

2024

Completed Mtech with 7.55 CGPA.

Goa, India

### Bachelors of Engineering in Computer Science and Engineering, Trinity Academy of Engineering

2022

Completed B.E. with 8.52 CGPA

Pune, India

## Coding Profiles

Github: [↗](#)

Leetcode: [↗](#)

GeeksForGeeks: [↗](#)

## Achievements

- Have secured first place in Social Application domain in National level event named Ideathon
- Secured AIR 1375 in Gate 2022
